Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1,2,4 rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Miller et. Al (GB2185894 A).

Claims 1,2,4: Miller teaches a game board with square base with a plurality of independent levels rotatably mounted on a central shaft (5, Fig. 10a,b).

Miller demonstrates ample examples and possibilities of shapes, levels and number of apertures per level.

Applicant may argue that Miller does not teach number of recess increasing from only one on the top to eleven at the lowest level.

Miller clearly demonstrates such variations being personal preferences to attract potential players. In order to make the game attractive to potential players it would have been obvious to create variations to suit preference.

Art Unit: 3711

One of ordinary skill in art at the time the invention was made would have suggested modifying game board structure to include claimed variation.

4. Claim 3 rejected under 35 U.S.C. 103(a) as being unpatentable over Miller in view of Rogers (GB 284536 A).

Miller teaches all limitations except that it does not teach hollow box under the structure.

Rogers teaches hollow box under the game as in a drawer configuration.

It is well known in the art area to provide storage area to secure game pieces supplied with the game. In order to secure game pieces it would have been obvious to modify game structure to include storage box.

One of ordinary skill in art at the time the invention was made would have suggested providing storage box under the game structure.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. 5494292, 3030112,.
